Democrats To Bring Campaign To Close With Pittsburgh Gathering

By RAYMOND WILCOVE

HARRISBURG, Nov. 5.—Pennsylvania's hotly-contested political campaign draws to a close today, with only the customary "last-minute" remarks of the candidates left before the actual balloting.

With the close of the campaign, all the candidates prepared to return to their home communities, there to await the verdict of the state's four and one-half million voters.

Judge Arthur H. James, Republican candidate for governor, will await the returns at his home in Plymouth, near Wilkes-Barre, and Charles Alvin Jones, Democratic candidate for governor in Pittsburgh, Gov. George H. Earle, Democratic candidate for United States Senator, will receive the returns at his home in Haverford, near Philadelphia, while his Republican opponent, U. S. Sen. James J. Davis, will receive the returns from Pittsburgh.

Final Appeals
Both the Republican and Democratic candidates will take to the air Monday night in a final appeal to the voters. Senator Davis closed his formal campaign for re-election last night in a statewide radio address. The long weeks of intensive campaigning by the two gubernatorial

On the counter at The News office is a basket containing three eggs, which were brought in by a woman from the Volant district. The eggs are quite an oddity. One, the largest, measures almost nine inches around the long way, and five inches around the short way. Another, which is almost perfectly round, was secured from the hen house the next day. It is almost perfectly round and is about an inch in diameter. The third egg is just a tiny one, and is shaped much like a cashew nut. It was laid during the summer.

While fortunately the grass is not growing on our streets, the same cannot be said of some of our railroads. Workmen with a car are engaged in digging out the grass around the Pennsylvania tracks at the east side station. Formerly this was a busy road, but of late years freight trains comprise the principal traffic. Autos and buses have been hard on passenger business.

"Two Absolutely Cannot Live As Cheap As One"

—PROF. ROSS ELLIS

(Special To The News)
NEW WILMINGTON, Nov. 5.—"Two absolutely cannot live as cheap as one," Prof. Ross Ellis of the Wesminster department of economics and business administration, told students here in the third of a series of YMCA lectures on "Marriage Relations."

Prof. Ellis commented, since personal chiefs have discovered that "contented husbands" are better satisfied, more anxious to succeed, and make better all-round employees than unmarried workers. Many failures in the business and financial world are due to unfortunate marriages.

Money should be used to buy "satisfaction," according to the economics professor; such as buying health, education, provisions for individual interests, means of social contacts, relaxation, and housing. The world needs much education in the ability to select the best when buying.

"Joint control of the purse-strings is the best solution for a married couple," Prof. Ellis added. "Furthermore, common knowledge of resources and common knowledge of necessary expenses will eliminate family troubles over money."

In conclusion, the point was stressed that in every budget should be provision for recreation, even though small.

Youth Kidnapped, Made To Accompany Three Holdup Men

(International News Service)
PITTSBURGH, Nov. 5.—Three things carrying pistols and a sawed-off shotgun today kidnapped Edward Ryan, 18, of Homewood, in his own automobile and forced him to accompany them while they robbed two drug stores and a saloon. The bandits terrorized customers, slugged one man brutally, and coolly divided their loot before getting out of the car with the threat that they would kill the victim's mother if he informed police.

Ryan said he was about to call for his mother at a party when the men appeared and forced him into the back seat. At a drug store operated by Robert Cowan the thugs cleaned up \$200, and at another they robbed the owner, B. M. Ford, of \$70. At a saloon they robbed the cash register of \$75 and slugged Frank Pawlark, 30.

Republicans Hold Successful Rally

Filling the spacious arena on Grove street to the limit of its capacity, the Republican rally of Friday night was a success beyond the expectations of the party leaders. Despite counter attractions the Republican county committeemen and workers arrived early and enjoyed the rather unusual affair.

It was not the usual kind of a political meeting. There were no set speeches, no formalities. It was just a group of citizens bound together in a common cause, taking time out to enjoy themselves.

Snow Forecast For Mid-West

Strong Winds And Pelting Rain Alleviate Forest Fire Dangers

STORM WARNINGS ON GREAT LAKES

(International News Service)
CHICAGO, Nov. 5.—Strong winds and pelting rains swept into the midwest and mid-south today, quenching forest fires and alleviating drought conditions, but threatening widespread property damage.

Bringing a sudden end to unseasonable warmth, the storms, scattered over a wide area, brought predictions of snow in many sections for the week-end, and caused storm warnings to be displayed on the Great Lakes.

Typical thermometer action caused by the storm was the sudden drop in temperatures in Chicago, where the mercury fell from a high of 72 to the low 30's within a few hours.

Very Strong Winds.
The central states apparently bore the brunt of the strong winds, which in some instances were of tornado proportions.

Buildings were toppled in Duquoin in southern Illinois, where telephone and telegraph service was disrupted, plate glass windows in stores blown out, and one newly completed garage structure ripped from its foundation and turned over.

Unroofed homes, toppled trees, broken windows and interrupted communications also were reported from Indiana towns. Power lines were down at Terre Haute, Ind., an oil derrick was wrecked at Centerville, Ill., a radio tower fell at Harrisburg, Ill., and at Shelbyville a factory building in which 150 men were working had its roof torn off.

Only death reported early today was that of John Buckle, 40, of Martinsville, Ill., who was electrocuted at Terre Haute, Ind., when a broken power line fell against him as he walked along a street.

Fire Threatens Farm Buildings

Blaze Last Evening Burns Over District On Neshannock Falls Road

Fire, which is believed to have been started by hunters in the woods on the J. T. McCreary farm on the Neshannock Falls road, just north of Lakewood, burned over several acres last evening, and threatened to spread to adjoining farms.

Farmers from the surrounding district responded to the call for assistance and circled the blaze, cutting down several burning trees to prevent the spread of the fire. The wooded section which was ablaze was in a corner where four farms join, but most of the fire was in the section belonging to Mr. McCreary.

By 10 o'clock, the fire had burned itself out, and later in the night, rain fell, finally quenching the fire.

President's Speech On Friday Night Develops More 'Third Term' Talk

By GEORGE DURNO
International News Service Staff Correspondent

HYDE PARK, N. Y., Nov. 5.—The nation knew today, if it never knew before, that Franklin D. Roosevelt was determined to bend every effort to perpetuate his New Deal program past 1940.

Political leaders from one end of the country to the other were appraising his appeal for election next Tuesday of "experienced and liberal" candidates who could be depended upon to support the administration and make possible a reasonable continuity in liberal government.

Third-Term Candidate?
The question on everyone's tongue was: Will President Roosevelt smash all precedent and offer himself as a third-term candidate in order to make certain that his policies continue, or is he merely trying to retain control of a nationwide political organization that will enable him to name his successor in the 1940 convention?

In his radio speech last night, the president gave no answer to this question. Instead, he contented himself with warning that a return to "old-line Tory Republicanism" might well lead the country eventually to Fascism or Communism, and called attention to what he considered lost gains in liberal government when Taft succeeded Theodore Roosevelt and Harding followed Wilson.

Four candidates in next Tuesday's election specifically got a lot of comfort from the president's broadcast on "voicing" those whose election he asked for by name were (Continued On Page Two)

Strong Resemblance To King George II Of Greece, Believed Motif

(International News Service)
LONDON, Nov. 5.—Resemblance of a prominent London surgeon to King George II of Greece, invited a murderous attack that nearly cost the Britisher his life, the London Daily Mail revealed today.

Scotland Yard is investigating the incident, seeking the attacker on the theory he sought to assassinate the visiting monarch when he stabbed Dr. Sydney MacDonald, the paper related.

Police enquiries, however, failed to confirm the Daily Mail report.

Mr. MacDonald, who bears a strong likeness to the king, was attacked last Tuesday while walking along a street in the Mayfair district, on his way home.

At first, the surgeon believed he only had been punched in the back by an ordinary street thug. His assailant escaped. Dr. MacDonald hailed a taxi and drove to his home, where he discovered he was bleeding from a knife wound.

VOTE, TUESDAY

Election campaigns are about concluded, and on next Tuesday the voters of New Castle, Lawrence county, and the state of Pennsylvania, will deliver the verdict.

There is one strong last minute appeal, and that is that every eligible voter in Lawrence County exercise the privilege, and perform the duty, of citizenship on Tuesday—and vote.

Democracy is based on the principle of rule of the majority, hence every vote should be cast.

And remember this—your ballot is secret. No one can ascertain how you mark it.

Unseasonable Heat Wave Is Ended By Rain At Cleveland

(International News Service)
CLEVELAND, Nov. 5.—The unseasonable heat wave of the last few days was ended here today after a 30-mile wind and rain storm lashed the city, causing considerable property damage.

No injuries were reported, although the skies cleared this morning, although storm warnings flew on Lake Erie. Several light poles were blown down, exposing live wires, and a large plate glass window in the Darvas School of Fashion Art blew in, endangering board members of the Business and Professional Women's Club meeting there.

Indirectly affected by the storm was Michael Eganish, 13, who was overcome by carbon monoxide gas when the wind blew fumes from a gas heater back down a flue in his home. He was revived by a fire department rescue squad.

PARIS, Nov. 5.—The forthcoming visit to Paris of British Prime Minister Neville Chamberlain and Foreign Secretary Lord Halifax presages still more changing of the map of the world, International News Service learned today.

The visit will prove a fore-runner of crucially important diplomatic discussions which will lead to three major international decisions, according to authoritative quarters here.

These decisions will involve transfer to Germany of certain mandated colonies in Africa, the question of granting belligerent rights to the Spanish Insurgents and a European four-power pact aimed at general appeasement.

International News Service learned on unimpeachable authority that the British and French governments virtually have decided to return the African mandated territories to the Reich.

Withdraw Order For R. R. Wage Cut

Railroad Heads Rescind Action

Executives Expect Some Relief Through Action Of Next Congress

THREATENED RAIL STRIKE AVERTED

(International News Service)
CHICAGO, Nov. 5.—Executives of the nation's major railroads meeting here Friday afternoon decided to withdraw the ordered 15 per cent wage cut for 300,000 railroad workers scattered throughout the country.

They had been urged to withdraw the proposed reduction by the fact-finding committee appointed by President Roosevelt to avert a threatened nationwide railroad strike.

Depend On Legislation
In following the recommendations of the president's committee and agreeing not to put the wage cut into effect Dec. 1, the railroad chiefs also notified President Roosevelt that they would depend on future legislation before settling the question of wages.

The railroads, it was said, have been given assurance by the president that the administration will push a program of "helpful" railroad legislation through the next session of congress.

The railroads had served notices of the pay cut, saying it would save them \$250,000,000 a year. By their action today, they withdrew the wage cut notices. Railroad brotherhoods previously had threatened to call workers out on strike if the cut actually were put into effect.

PRESIDENT'S SPEECH ON FRIDAY NIGHT, THIRD TERM TALK

(Continued From Page One)

Governor Herbert H. Lehman and Senator Robert F. Wagner, seeking re-election, and Rep. James M. Mead, aspiring to the short Senate term, all of New York; and Governor Frank Murphy, of Michigan.

Appeals For Lehman's Return

In appealing for Lehman's return to Albany for a fourth term, Mr. Roosevelt took some robust cuts at the governor's Republican opponent, District Attorney Thomas E. Dewey, who has been widely mentioned as a G. O. P. "White Hope" for '40 if he can win next week's election. Making it so obvious about whom he was talking that no name was needed, the president said Dewey was too young and inexperienced to be governor of New York even though he had been a good racketeer prosecutor.

Loss of his powerful native state to the Republicans on Tuesday, concededly would be a severe blow to Mr. Roosevelt's political plans. He argued vigorously for the Democratic ticket last night.

But the executive's speech was not confined to the borders of any one state. In just so many words he announced that, while not all the New Deal has done has been right or successful, its "economic and social program of the past five and a half years has definitely given to the United States a more stable and less artificial prosperity than any other nation in the world has enjoyed."

The president said he used to compare government with the building of a house, in that once the problems of building were outdone both stood complete and compact.

Not Good Comparison
"Now I know that the comparison is not a good one," he asserted, "once you build a house you always have it. On the other hand, a social or economic gain is different. A social or economic gain made by one administration may, and often does, evaporate into thin air under the next one."

We all remember well-known examples of what an ill-advised shift from Liberal to Conservative leadership can do to an uncompleted Liberal program. Theodore Roosevelt, for example, started a march of progress during his seven years in the presidency but, after four years of President Taft, little was left of the progress which had been made. Think of the great Liberal achievements of Woodrow Wilson's new freedom and how quickly they were liquidated under President Harding.

We have to have reasonable continuity in Liberal government to get permanent results."

SOME COLONIES MAY BE RETURNED TO GERMAN RULE

ations of the way the wind is blowing will come tomorrow when Colonial Minister Georges Mandel makes a speech.

Mandel, one of the most fiery members of the French cabinet and a fierce opponent of the Munich accord, dismembering Czechoslovakia, submitted his resignation to Premier Edouard Daladier during the European crisis.

Tomorrow Significant
But tomorrow—significantly—he will make no allusions on his own behalf to the integrity of the French empire.

In his speech, at least as it is framed at present, Mandel is expected to recall solemn pledges made by certain French ministers up to the time of the Munich pact, but will refuse to make his own affirmation of the integrity of the French empire, as Daladier did before the radical socialist party congress at Marseilles.

In accordance with this trend, the Spanish Insurgents will be granted belligerent rights as they were promised during the crisis when they pledged neutrality.

Paris, it was learned, was chosen as the site of the forthcoming Anglo-French conference on the insistence of the French ministers, who wish to avoid the appearance of going to London to get orders regarding the decisions which will now be reached in Paris.

There is one thing for voters to remember at the coming election. Your ballot is absolutely secret. There is no way by which an election board or anyone else can tell how you vote. It does not matter how you are registered, you can vote as you please. Straight party or split voting may be done, as you may desire.

Down in Spelter, W. Va., men have been digging solid rock for nearly two weeks to release a dog which got into a hole in the rocks and could not get out. When a dog catcher comes along and picks up a dog on the streets there is nothing peculiar about it, and nobody thinks of doing anything. But let that same dog get into a hole where he can't get out, and the heart of the community goes out in sympathy. Folks sort of imagine themselves in a hole and how they would feel if no one came to the rescue.

ARTHUR H. JAMES

Republican Candidate for Governor SAYS:

Charles Alvin Jones, Democratic candidate for Governor, still has time to answer the questions I asked him five weeks ago. "Do you believe in a governor secretly borrowing \$26,500 from a contractor boss?"

"Do you believe in the macing of everybody on the state payroll to build up a war chest?"

"Do you believe in spending half a million dollars to call a special session to save suspected state officials from the usual, lawful investigation that has come down to us with the Bill of Rights?"

There is still time to answer, Mr. Jones. The people want your answer; why not play fair with them?

Two years ago George H. Earle was running for President. Today he is running for a suspended sentence in the court of public opinion.

TRADE THEORIES AND THE CRUEL FACTS

THE sincerity of Secretary Hull's belief that the particular trade agreements he has been so busily negotiating with other nations will contribute to this country's prosperity and also to international peace is beyond question. But it is not the first instance of an idealist who, in pursuit of a pet theory, has failed to take full account of the practical and unfortunate consequences.

A famous philosopher's definition of a tragedy was the collision of a theory with a fact, and the hard fact in this case is that these one-sided bargain arrangements with other countries have added to unemployment, militated against recovery and threaten to work still more mischief.

This is an evil which some sections of labor are beginning to perceive and which more will realize as time goes on.

With a multitude of factory employees still out of work, this was hardly a propitious time for Mr. Hull to urge the expansion of his so-called reciprocal trade program, as he did in New York the other night.

Statistics don't tell the whole story, but when in the first eight months of 1938 we import thousands of pieces of china-ware and kitchen utensils, 36,000,000 square yards of cotton cloth, 12,000,000 square yards of cotton and woolen rugs—all articles that we can make as well but not as cheaply because of the American standard of living and wages—the workers are bound to suffer.

And during this time the relief rolls have been going up by leaps and bounds. There's something wrong, and it is not difficult to trace one of the causes. It's a beautiful theory that we can promote peace by keeping foreign workers in their jobs at the expense of our own. But there's no getting around the fact that the way to make and preserve jobs for American workers is to protect them from unfair foreign competition.

FORGET THOSE MARTIANS

For these thousands of citizens who were terrified by a radio dramatization of a fictional assault on the earth by inhabitants of Mars, a bit of scientific clarification may be in order.

Most leading astronomers are extremely doubtful as to whether there is life, in its higher forms, on the planet Mars. The conditions of temperature, climate and atmosphere are such as to scarcely support life as we know it.

To be sure, the late Professor Percival Lowell, of Harvard University, was convinced that the so-called Martians "canals" were indicative of the presence of intelligent beings capable of accomplishing engineering feats of vast scope. But, with the construction of larger and larger telescopes and with the modern improvement of observational technique, the very existence of these "canals"—or, more properly, channels—has become a matter of widespread scientific doubt, if not actual disbelief.

However, even if Professor Lowell were right, the surpassing difficulties of interplanetary communication would place any conceivable Martian invasion within the realm of virtual impossibility. The people on Mars, if people there be, would be ill-adapted to worldly conditions, moreover, and probably wouldn't survive a minute unless, to stretch fancy to the breaking point, they came here equipped with tanks containing liberal quantities of the extremely thin Martian atmospheres. Even so, instead of fighting, they'd no doubt ask for a drink of water, for water on the ruddy planet is about as prevalent as diamonds on the earth.

A FRIEND OF THE DOUGHBOY

Americans have reason for more than an ordinary interest in General Jean Marie Joseph Degoutte, whose death at the age of seventy-two in his native village of Charnay is reported from France.

General Degoutte was one of the most consistently successful of all the generals in the Allied armies. The armies under his command liberated Plandiers. He commanded a Moroccan division in the Somme and the Champagne battles, and later, under Marshal Petain, participated in the Malmaison offensive, which led to the capture of the Chemin des Dames.

One of the most distinguished of his achievements, however, was his part, as commander of the Sixth Army, in the counter-offensive against the German Chateau-Thierry pocket, where the American troops wrote a memorable page of their history.

From his experience with American soldiers in action, General Degoutte developed a great friendship and admiration for them. "You never had any trouble with them going forward," he said, on one occasion. "Your trouble came when you wanted them to stop."

Not all of the Allied commanders were generous in their appraisal of the value of the American soldier as a factor in determining the war's outcome. General Degoutte never hesitated to pay eloquent tribute to the initiative and the courage of the doughboy. Americans, particularly those who served in France, accordingly have reason to regard him as a friend and to feel sorrow for his death.

WHENCE COMES AUTUMN'S BEAUTY?

There are pragmatists to whom beauty in itself is not sufficient. They are not satisfied with the mere glory of an Autumn sunset, the fragrance of a rose, the crocus that struggles forth from the cool earth in Spring. They must know something of the forces, the processes and the practical functioning of the laws of Nature that produce the phenomena that come with the swiftly succeeding seasons.

Just now they waste time in speculating and inquiring concerning the reasons why such a bright blaze of glory attends the death of vegetation, why the hills are alight with brilliant hues. There is a vast amount of learned talk about alkalinity and acidity and chemical reactions caused by varying weather conditions. There are also frank admissions by other learned men that they are mystified by the whole business.

But those who are wise do not concern themselves with the matter. They simply yield to the spell of autumnal grandeur, make the best of every glorious moment in these rare days and do not ask for reasons or causes for the delight that the dying season offers.

Hiding your suffering doesn't require heroism. All you need is somebody to brag on your bravery.

The Parent Problem

INTERFERENCE WITH LEARNING

Charles Dickens seems to be telling about himself in the following account from David Copperfield. I wonder how many children of today have similar experiences at school homework.

"I come into the second-best parlor after breakfast with my book and an exercise book, and a slate. My mother is ready for me at her writing desk, but not half so ready as Mr. Murdstone in his easy chair by the window (though he pretends to be reading a book), or as Miss Murdstone, sitting near my mother, staring at me with a very odd look. These two have such an influence over me, that I begin to feel the words that I have been at infinite pains to get into my head, all sliding away, and going I don't know where.

Hands Book To Mother
"I hand the first book to my mother. Perhaps it is a grammar, perhaps a history or geography. I take a last-drowning look at the page as I give it into her hand, and start off at a racing pace while I have got it fresh. I trip over a word. Mr. Murdstone looks up. I trip over another word. Miss Murdstone looks up. I redden, tumble over a half-a-dozen words, and stop. I think my mother would show me the book if she dared, but she does not dare, and she says softly:

"Oh, Davy, Davy!"
"Now, Clara," says Mr. Murdstone, "be firm with the boy. Don't say Oh, Davy, Davy! That's childish. He knows his lesson or he does not know it."

"He does not know it," Miss Murdstone interposes awfully.
"I am really afraid he does not," says my mother.
"Now, Davy, try once more and don't be stupid."

Obeys First Clause
"I obey the first clause of the injunction by trying once more, but am not so successful with the second, for I am very stupid. I tumble down before I get to the old place, at a point where I was right before, and stop to think. But I can't think about the lesson. I think of the number of yards of net in Miss Murdstone's cap, or of the price of Mr. Murdstone's dressing gown.
"Mr. Murdstone makes a movement of impatience which I have been expecting for a long time. Miss Murdstone does the same. My mother glances anxiously at them. She snatches the book and lays it by as an arrow to be worked out when my other tasks are done.
"There is a pile of these arrears very soon, and it swells like a rolling snowball. The bigger it gets the more stupid I get."

The World AND THE Mud Puddles

KINGS

Frederick Augustus, former King of Saxony, was given a grand title of four hundred rooms and 30,000 acres of land at Moritzburg as his share of the spoils, when his country was declared a Republic in 1918. Here the ex-monarch pursued to his full desire the favorite sport of his family—the chase.

One day a visitor at the castle was sympathetic with him on his sad plight, and remarking that it must have been a terrible feeling to be deprived of a kingdom.
"Well," said the king with a twinkle in his eye, "compared to my late colleagues in this king business I'm having a jolly good time."

Noted for his keen wit, the man who was indifferent to being a monarch of Saxony had plenty of opportunity to exercise his personal freedom and mingle with the common people after his kingdom crashed about his ears in 1918. During the World War he made but one trip to the front to see how the German allies were getting along and endeavored himself more to the people after his downfall than was ever possible when he was king.

One day standing in a railway station, he noticed two men talking together, and glancing at him, finally one walked over.

"Pardon me, sir," he said, "but aren't you the King?"

"I'm a high-born," he replied.
"Kings come and Kings go, but in the end the world has always come back to a King, for 'the King,' as Carlyle says, 'is the can-man,' the 'cable man.' The English word is the shortened form of the German word, 'Koenig.' Carlyle translated the word literally."

Dear Miss Market—When I have overnight guests in it my place as hostess to suggest going to bed or should I wait until they make the suggestion?
Answer—It is the privilege of your guests to show the first inclination to retire. If they seem to be enjoying themselves and show no sign of weariness, do not bring up the subject of going to bed. If, however, you are simply having "an evening at home" you might explain that they are at liberty to go to bed at any time they wish.

Shoulder contraction does not reduce one's height, neither does the habit of standing on one foot and relaxing the diaphragm with the hope of shrinking a few inches from a too-long body. Regardless of your height, stand with your shoulders back, your head erect as if trying to make yourself as tall as possible (without standing on your feet).

The more you think about your height and the more you strive, by stooping, to make yourself appear shorter, the more you will defeat your purpose and appear gawky.

Roosevelt To Seek Armament
Larger Navy Held Requisite
Believe Demands Will Be Met

By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, D. C., Nov. 5.—

Naval and army and aerial preparation will figure very largely in congressional debate when the lawmakers next meet in Washington beginning January 3. That already is evident. President Roosevelt will not make a strong message to Capitol Hill calling for rapid expansion programs in all these lines and it is a foregone conclusion that the legislators will give him pretty much whatever he asks for. Senators David I. Walsh and Morris Sheppard, chairmen respectively of the Senate's Naval and Military Affairs Committees, and Representative Carl Vinson and Andrew J. May, as chairmen of the corresponding House committees, naturally will balk importantly in the task of getting the required appropriations for the development of our sea, land and air forces.

I mention the navy in this place because, for obvious reasons, sea power is what Uncle Sam especially will need in the event of any future international clash. There are other peoples (notably the Germans) who are more vitally concerned in the upbuilding of their air fleets and the training and equipment of their cohorts of earthy land fighters than we are. Due to our New World geography, however, an effective navy is our prime consideration.

Peril From The Air

Perhaps I ought to have put our aviation in second place. Hostile foreign flyers couldn't invade us and secure a foothold, but they might do a lot of damage. We haven't any separate congressional air committees anyway. Overseas folk have their aviation ministries. Like our war and navy departments we haven't. Maybe for us such a department isn't necessary.

Our land and waters' interests count third. They're not negligible interests. Yet they're not so primary as the navy's—unless we cross seas to do some expeditionary fighting, which isn't contemplated.

There likewise is involved the matter of a stepping-up of the potential activities of our war industries.

We have the industries all right, but they're adjusted to the production of a peace-time output. They can be re-adjusted to war-time demands, but can it be done on short notice?

The Old World can do it.

We lost the faculty for such a readjustment soon after the last world conflict. We had an idea that that war was a war to end war. We really believed it. The more sophisticated Old World knew better.

We've lagged consequently—very much to be pitied.

I was a pacifist before the last World War. I believed in the League of Nations. I'm cured now.

Madame Russia Schweitzer inspired that Ford party. I still get letters from her, reproaching me for having turned traitor to the peace concept. I'm sorry, but it won't work that way.

Theory Of Armaments

The theory is that a country must arm against some other country. The country of the second part retaliates with arms against the country of the first part.

Presently a point is reached at which it's cheaper to fight it out than to be continually arming.

It was just so between Britain and Germany in 1914.

And it yanked the whole world into the World War—a war essentially between England and Germany.

Lord Incheliffe, a famous shipbuilder, offered the surest remedy to opposition any building when he said a few years ago:

"Let all warship building be by popular subscription."

Who'd invest in warships?

What Noted People Say

(International News Service)
DES MOINES, Ia.—Major Gen. Smedley D. Butler, retired officer of the U. S. Marines:

"One out of every 500 Americans is a traitor."

NEW YORK, Mailstar Jeanette G. Brill, denouncing a man marrying solely to obtain a home:

"A woman who does not love a man has no right to marry him."

BOSTON, Alfred P. Sloan Jr., chairman of General Motors Corporation:

"It just can't be true that the American economy can only be sustained by consuming our national assets."

CALIFORNIA—California State Attorney General U. S. Webb, riding on various illegal games and sports:

"The only thing honest about a dog race is the dog."

LONDON, King George in a speech read to the house of lords:

"The cause of war was powerfully aided by the timely action of the president of the U. S. A."

AT bottom, it is why the Dies committee, which has been burning out the facts about the Communistic saturation of the C. I. O. with which Mr. Roosevelt unaccountably is allied and to which he is under obligations for financial and political support, has been so bitterly denounced by New Deal spokesmen, why it was deemed necessary to have such unprecedented hearings to discredit Mr. Dies.

The little committee of the New Dealers, who have from their Communistic support, their anger at its exposure and their indignation when it is referred to, might be amusing if it were any the answer to that question of "Why?"

Mr. Browder Speaks Again

WASHINGTON, Nov. 5.

IT WAS rather a break for the press, that so little publicity attended the Tuesday speech of Mr. Earl Browder, head of the Communist party, defending Mr. Roosevelt against his enemies, and urging Communism to win the Democratic ticket so as to bring about complete unity of the liberal forces.

THE truth is that this steady, unswerving and whole-hearted support which the Communists have given, and are giving, to Mr. Roosevelt, to his New Deal policies and to the New Deal candidates, is a source of some embarrassment to the New Dealers, from the President down. The reason is easy to understand. If there is anything certain about the people of this country, it is that the great mass of them are anti-Communist. The steady adherence of the Communists to Mr. Roosevelt, despite

Trinity Church
Canvass Begins
Sunday Afternoon
Men Will Assemble For Instructions In Guild Room At 2 P. M.

The annual every member canvass, delayed to give the right of way to the Community Chest, for the support of Trinity church starts tomorrow with the assembly of canvassers in the Guild Room at 2 p. m. The members of the official board are acting as leaders. Every man in the parish can do so as asked to be present to learn of the new method being tried this year, to receive his assignments and go forth for the visits, which it is expected will be made as soon as possible, but will probably take two weeks of faithful work. A larger number of advanced subscriptions have been received than usual, manifesting a fine spirit of co-operation.

At 11 a. m. the pastor, the Rev. Philip C. Pearson, will preach a short sermon on "What It Might Mean," in showing what the actual nature of the life of the new Christians would mean if the sermon of All Saints and his blessed messages were really followed through. Mr. Pearson's discourse will be one of hope and encouragement. The senior choir, led by Miss Isabel T. Johnson, has prepared a special program of music appropriate to the octave of All Saints for the services at 11 a. m. and 7:30 p. m.

St. Paul's Church
Cradle Roll Day
"A Little Child Shall Lead Them" In Morning Worship Tomorrow

To recognize two important factors in the Christian church's life and to stress them, St. Paul's Lutheran church annually observes Cradle Roll day because the soul of the child is just as important as the soul of the adult, and in baptism the child has become a member of the Kingdom of God and so has a place equal with any others in the Christian congregation. Family day is observed because with the break up of the modern social order and the set up of the family and business life, every one is so busy and hurried that even at the family table the only time that all of them are together is for the evening meal, and then often to hurry along for the evening engagements. The Lord created the unit of social life as the family, and as a family, Rev. A. M. Stump invites all to the worship service where for this day the little ones shall take a leading part. The Scriptures are still apt: "A Little Child Shall Lead Them."

The Cradle Roll program, prepared by Mrs. Jennie Kotchish, cradle roll superintendent; Mrs. B. Dittely and Mrs. L. Lewis, teachers, follows.

Honors Chapel At Westminster

Students are Given Special
Awards At Meeting On
Friday

ALLEGHENY HEAD
MAKES ADDRESS

(Special To The News)
NEW WILMINGTON, Nov. 25.—
This is the first time in history when
students should be encouraged to
dream great dreams. President
William T. Tolley of Allegheny college
told Westminster college students at
their special honors convocation
chapel Friday. "It is better to aim
high, whether the goal is reached
or not."

The scholar has always been en-
vied of the athlete for all of the
prizes and glory given to ath-
letes. President Tolley said; but, he
reminded Westminster's honor group
the race in the end is often for
"those who walk" instead of for
"those who run."

President R. F. Galbreath of
Westminster admitted in opening
the honors chapel that no ideal sys-
tem has ever been worked out by
education to accurately and fairly
grade students; but commended the
honoring of scholarship in the fifth
honors chapel at the college. Dean
Maxwell E. Kelso distributed certi-
ficates of merit to students with
highest grade-averages.

Present Awards
Scholarship cups were then pre-
sented to women's groups by Dean
Mary Turner, and by Dean Kelso to
men's organizations. Winners of the
Ellen Louise Poulke cup, given by
Mrs. E. B. Russell, was Kappa Delta
society, for the third straight year,
and winning the cup for highest all-
group average was the non-scholarship
group for the seventh straight year.
The men's cups were won by the
non-fraternity group, and by Sigma
Phi Epsilon fraternity.

Predicts G. O. P. Will Recapture 130 House Seats

Member Of House Probe Com-
mittee Makes Prediction
At Harrisburg

(International News Service)
HARRISBURG, Nov. 25.—Rep. El-
wood Turner, Republican leader in
the state house of representatives to-
day predicted that the Republicans
would recapture approximately 130
seats in the lower chamber, "while
electing all present members who
are candidates for re-election."

Turner, a member of the house
craft investigating committee, de-
clared that "charge, counter-charge
and investigations have disgusted
the silent vote generally."
"The failure of the governor and
the others to appear and answer,"
he added, "notwithstanding their
loud demands that an opportunity
be given, has confirmed the belief
of many as to their guilt."

A "comprehensive survey" by the
Republican house campaign com-
mittee shows the Republicans gain-
ing control of the house, said Turn-
er.

At the same time Turner claimed
victory for "at least 15 Republican
candidates in Allegheny county."

New Fords Presented In Francis Display

Sales Room Converted Into
Motor Salon For 1939
Models

With a brand new member of the
family making its bow to the motoring
public, the 1939 display of Fords
and Zephyrs is now being held in
the sales rooms of the local distrib-
utor, William A. Francis on Croton
avenue.

New designs and new features
mark the V-60 and V-85, but the
car that gets the major portion of
attention at this show is the Mer-
cury, the new Ford production. It
is midway between the Ford V-85
and the Lincoln-Zephyr. In size
the Mercury is 135 inches over all,
has a wheelbase of 116 inches and is
motored with a 95 horsepower en-
gine.

The new Fords are trim looking
crafts either in the V-60 or V-85
classes. More streamlined than 1938,
with headlights recessed into the
fenders, new seat construction and
transverse springs, plus large hy-
draulic brakes. They have every-
thing a motorist wants in the way
of comfort, safety, economy and per-
formance.

For the showing of new cars Mr.
Francis has his sales rooms dec-
orated with mums and ferns. The
green and grey maroon of the new
cars against the background of
green and yellow of the ferns and
mums makes a pleasing contrast.

The display will last for several
days with the sales room open
nights.

THE COMMON COLD—2

I have a great respect for the common cold. This I say partly because I have watched its ravages year after year and particularly because in complications arising from it is about the only illness that strikes the Dionne Quintuplets hard enough to send them to their beds.

It has been easier for us than most. We have been able to do what few families can—keep them completely from outside contacts when there is an epidemic about. Why, for the first year or so they were alive, neither the nurses nor myself went near them without the protection of surgical gowns and gauze masks. In your own home, you can, to a degree, give your baby this protection. But your child of school age must as I have pointed out previously, stand on his own feet.

However, in spite of the best efforts, I know perfectly well that your child is quite apt to be taken down with a cold. When this happens, then I strongly advise that he be kept at home and in bed if that is possible. As to food, let him eat as much as he wants. Don't force him to eat, for we have outgrown the old idea: "Feed a cold and starve a fever."

Between meals it would help if you would give him plenty of water and orange juice to drink. Another good thing is to give him a teaspoon of bicarbonate of soda in a glass of boiled, cooled water every few hours. There are a number of things that can be done to relieve the uncomfortable feeling a cold gives your child. But there is one important thing to remember—if your child's cold persists call in your physician. He can do more than anyone else to hasten recovery, providing you do as you're told.

Here is another little tip to mothers: when your child contracts a cold, teach him to blow his nose properly and you may save him no end of suffering and annoyance. The proper way is to blow the nose softly, first one side, then the other.

or, with the mouth open. Warm him carefully that if he blows violently he is likely to force the infection up into the ear tube. Then there is trouble.

I have talked away about colds in children, and I hope adults will take some lessons from it, too. I think learning to wear proper clothes is a big help to everyone. I know we have found that to be true in the case of the Quintuplets. Heavy underclothes aren't good; they may be fine while you are outside, but when you go indoors, you are too warm. The same is true of men who are working hard outdoors. If their underclothing is too heavy, they get overheated, perspire and then get a chill when they stop working.

I remember watching lumber jacks working in their shirt sleeves although it was 30 or 40 degrees below zero. I used to wonder why they didn't catch cold, exposed as they were. Now I know how wise they were. They took off their coats and kept getting overheated. But when they finished, then they put on heavy mackinaws and sweaters. They thus avoided sudden changes in temperature which are always dangerous. I'm sure most of my older readers can remember when women wore heavy underclothing. Today they don't wear much of anything even in winter. But I'm sure if I don't think they're healthier for it.

Try and avoid colds if you can. But once you have caught a good one go to bed with plenty of paper handkerchiefs and a good book. That's about the best advice I can give.

Cleaner Hose

(International News Service)
BUFFALO, Nov. 5.—Their love apparently thwarted during life, the bodies of a young married man, his attractive brunette sweetheart, their arms tightly locked around each other, were found in a small coupe in a parking lot here Friday.

They were identified as Albert Van Valkenburg, 30, and Sally Jazemski, 18.

Police said death was due to carbon monoxide poisoning. A vacuum cleaner hose was attached to the exhaust pipe of Van Valkenburg's car and the other end pushed through floor boards of the machine. All windows were closed and both doors locked.

The car was driven into the parking lot late Thursday night, after attending a dance.

Van Valkenburg had been reported missing early last night by his wife, Mrs. Alice Russell Van Valkenburg, who told police she feared her husband had planned to take his life.

When police forced open the door of the car, they found Van Valkenburg slumped down behind the steering wheel. In his arms her dark head nestled against his chest, was Miss Jazemski.

Van Valkenburg had been married three years. There were no children.

DAILY DOZEN

(From the Medical Society of
the State of Pennsylvania)

Pennsylvanians are geographically fortunate.

They are not in the earthquake belt.

They are not subject to loathsome diseases. Pennsylvania has no dust bowl or sand storms.

Grasshoppers do not plague farmers of this state.

The boll weevil is not a problem.

The weather is not excessively cold in winter.

Nor oppressively hot in summer.

We do have floods on occasion.

But these may in time be controlled by man.

Pennsylvania is notably free of nature's handicaps.

Let's be thankful for Pennsylvania.

Sheriff Is Beaten By Jail Prisoner

FRANKLIN, Pa., Nov. 5.—An attempted jail-break was frustrated here when sons of Sheriff I. O. Bell, attacked by one of the 19 prisoners in the jail block, came to his assistance. The sheriff was badly beaten by a club wielded by Frank Snyder, 26, who was jailed on an assault and battery charge, and who has previously served time for misconduct.

Graham Would Probe Political Efforts In Relief

Signs Statement Pledging Himself, If Elected, To Work For Probe

By ARTHUR C. WIMER
(Special Washington Correspondent, New Castle News)

WASHINGTON, D. C., Nov. 5.—Louis E. Graham, Republican candidate for the seat in the House of Representatives now held by Representative Charles R. Eckert, has joined with a prominent group of G. O. P. candidates and office holders in urging an investigation into political activities of all Federal relief agencies.

By signing the statement, Mr. Graham pledges himself, if elected, to demand and seek unceasingly an investigation into the political work of relief agencies. The purpose of the signers is declared to be "the safeguarding of relief administration against the corrupting and wasteful hand of the political gentlemen, so that the money appropriated for relief will go to those for whom it was intended."

Other signers of the statement included Senator James J. Davis of Pennsylvania Republican up for reelection.

Annual Rites At Cemetery

St. Joseph's Parish Will Have Impressive Memorial Services Sunday

VISITING PRIESTS WILL TAKE PART

Impressive memorial services will be conducted at 2:45 p. m. Sunday in the beautiful cemetery of St. Joseph's parish, located off the New Wilmington road.

Rev. Fr. Joseph A. Doerr, pastor, said today that numerous New Castle and out-of-town priests will participate in the annual rites. The main address will be delivered by Rev. Fr. Francis M. Dimechek, of the Hazelwood district, Pittsburgh.

Other guest clergymen will include Rev. J. E. Janok, pastor of St. Michael's New Castle, Rev. Joseph Young, of Bessmer, Rev. Vincent O'Donnell, New Castle hospital chaplain, Rev. Francis X. Foley, Rev. Paul Campbell, Rev. Andrew Pauley and Rev. Thomas B. Lappan, all prominent Pittsburgh church leaders, well known throughout the diocese. Father Campbell is superintendent of the diocese parochial schools. Father Lappan is director of the St. Vincent de Paul Society.

Father Doerr and his assistant, Rev. Peter Schirra, will also participate in the services, of course. A large crowd of people are expected to gather to pay tribute to the memory of the beloved deceased members of the parish.

Find Uniontown School Girl And Male Companions

Will File Charges Against Two Men In Connection With Girl's Delinquency

(International News Service)

UNIONTOWN, Pa., Nov. 5.—Betty Gray, 14-year-old school girl reported missing since Thursday noon, today was back at home while city police held two ex-convicts in connection with her disappearance.

Acting on information given them by Dale Everhart, 25, police found the girl and O'Neal Stammler, 26, a WPA worker, married but estranged from his wife, near the historic Friendship Hill school.

Both Everhart and Stammler were held in charges of contributing to the delinquency of a minor, but police officials hinted that more serious moves may be taken against the men.

The girl disappeared Thursday noon and was last seen entering a car allegedly driven by Stammler. Yesterday police picked up Everhart driving Stammler's car and after grilling by police, Everhart confessed he knew where the pair were.

The girl told police she and Stammler roamed the woods in the daylight and spent the nights in the school house. Everhart brought them food, police said the girl told them.

Both men were convicted on a burglary charge a year ago and have been on parole, police said.

Continue Effort In Mooney's Behalf

(International News Service)

WASHINGTON, Nov. 5.—In a petition for rehearing filed in the supreme court today, counsel for Tom Mooney, farm labor prisoner, demanded that the court state its reasons for refusing to review his case.

The high court recently declined to review a decision of the California supreme court denying freedom to Mooney, who was sentenced to life imprisonment for complicity in the San Francisco preparedness parade bombing of 1916.

Fun-Loving Duke Is "Exiled"

The Duke of Kent, pictured above with his wife, the former Princess Marina, and their baby son, Prince Edward, has been "promoted" to the post of Governor-General of Australia, succeeding Lord Gowrie. The "promotion" is a form of exile for the fun-loving Duke, who is a favorite of his brother, the Duke of Windsor. Marina wept when she heard the news. Both are extremely popular in London. Statements By President Are Not Accepted

Landon Questions Declarations Made By Roosevelt Last Night

(International News Service)

TOPEKA, Kan., Nov. 5.—Alfred M. Landon today questioned the statement of President Roosevelt that "our economic and social program of the past five and a half years has definitely given to the United States a more stable and less artificial prosperity than any other nation in the world has enjoyed."

"The president," Landon said, "definitely does not consider a spending and lending program—with the bills unpaid—and this to be capped by a huge armament program, as an artificial base for what little 'prosperity' we have."

"Money spent for armament is not reproductive," the former Kansas governor and 1936 Republican presidential candidate added.

Landon declined to say whether or not he regarded the president's speech last night as an indication that he might seek a third term.

Truck And Auto Collide On Road Near Enon Valley

Nick De Marko, rear 921 South Mill street, sustained an injury to his left arm at 5 p. m. yesterday when a Scarszo truck operated by John Marrangoni, 1101 Pollock avenue and an auto driven by Margaret Lipp, Enon Valley, collided on Route 351 between Mount Jackson and Enon Valley, according to State Motor patrolmen.

JUNIOR GARDEN CLUB

Election of officers will take place at the December 1 meeting of the New Castle Junior Garden club, which will be held in the George Washington school library at 7:30 o'clock. There will also be several reports given by members and a guest speaker. Visitors and new members are invited to attend this meeting.

The club met last Thursday evening in the school library and there was a discussion of indoor gardens for winter. Several social events were planned for the coming month.

The hardest thing to remember is that it's none of your business.

Gra-Y Clubs Stage First Night Rally

Celebration At 'Y' Draws 150 Boys; Entertainment Provided

One hundred and fifty Gra-Y club members from eight clubs assembled in the boys' department rooms of the Young Men's Christian Association last night for their opening rally of the current school term.

Under the direction of competent leaders and advisors, the Gra-Y youths learned, in a business session, some of the plans which have been worked out for them for the coming winter season.

And, for entertainment, they viewed entertaining motion pictures of naval training activities projected by the U. S. Navy's recruiting chief here; enjoyed a swim in the "Y" pool, and participated in other fun.

Boys' Work Director John D. Thompson, one of the supervisors of the rally, announced that the Gra-Y clubs will stage a swimming meet at the "Y" pool Saturday, November 19. He also announced that a council meeting for all club officers and advisors will be a future event.

Clubs represented at the rally included the Neshannock, Lincoln-Garfield, Thaddeus Stevens, Rose Avenue, Ben Franklin, George Washington, Junior B and Oak Street groups.

Kiwanis Prepares For "Grange Night"

James Mayberry, chairman of the club's agricultural committee, is in charge of the evening's arrangements.

GRASS FIRE

Seventh ward firemen were called to the home of Mrs. Anna Masters, of 217 South Cedar street at 5 o'clock, Friday evening, when grass was found burning the front yard.

Freedom means the right to enjoy freedom—not the right to destroy it. The highway is free—not the concept of which it is made.

What Do Republican Leaders Think of This Election?

EX-GOVERNOR PINCHOT in a statement made to the press on Oct. 13, 1938 says:

"I am a Republican, but I take no orders from any boss. I am an independent, progressive Republican. That is where I have always stood and that is where I stand today. Like so many other progressive Republicans throughout the State, I am taking no part in a campaign run by and for Annenberg and Pew and their subordinates.

I hate to think of what that pair would do to the CHURCH PEOPLE, to ORGANIZED LABOR and to the thousands who depend on different kinds of relief, if they got the chance.

I hate to think of what will happen to the FARMERS, the WORKERS, the SMALL BUSINESS MEN, the CLEAN AND DECENT PEOPLE of this State, if Annenberg and Pew should succeed in getting control of the government of Pennsylvania, or even of the government of the United States."

RAYMOND CLAPPER, Prominent Political Commentator, in his column in the Pittsburgh Press on May 14, 1938 says:

"Mr. Pew is running a former Vare henchman, Judge Arthur H. James of Superior Court. An index of his size is the fact that some years ago when Judge James wanted to run for the State Supreme Court and announced his candidacy, Vare decided to yank him. Judge James said: 'If Mr. Vare is for me I will continue in the race; if he should ask me to withdraw, I would get out.' Mr. Vare asked him to withdraw, for a few days later Judge James said: 'After several conferences with William S. Vare I have decided not to run for the Republican nomination for justice of the Supreme Court.'"

DR. ARTHUR B. FOSTER, chairman of the Pinchot Campaign, this year says in an ad in The New Castle News on May 15, 1938:

"Who put Arthur H. James in this campaign? The same men and the same kind of money that put him on the Superior Court bench. And by the way, why hasn't James resigned as judge to be a candidate for governor? Seven men met in a New York hotel room and decided that James was their sort of candidate. They believe in getting their money's worth. Nothing is too good for the two Joes. Where has the flood of money for James in Lawrence county come from?"

Lawrence county has always been against the Vare type of politics and politicians. No matter whose names are on the James advertising in this county, back of the scene is still the Vare gang, and of course the two Joes, Grundy and Pew, plus Jay Cooke, plus Moe Annenberg."

THE AMERICAN BAR ASSOCIATION—Dominated by Republican Leaders:

Has asked Judge James why he refuses to resign from the Bench (which pays a salary of \$18,000.00 a year) while campaigning for the Governorship—in violation of its code of ethics.

How can Judge James render an honest decision as a Judge in cases involving the Workmen's Compensation Laws, Unemployment Compensation Laws, the Women and Minor Wage and Hour Law, Teacher's Tenure Act, Full Crew Bill, or Old Aged Pension Law and Relief Law, which as a candidate for Governor he has said should be "burned."

Judge James received contributions in Primary of over \$400,000.00 from his backers (\$150,000 from one family alone). How does Judge James reconcile this conduct with the rule of the American Bar Associations which prohibits Judges from receiving contributions while holding office.

These Republican Leaders whose interest in good government rises higher than partisan politics, express the sentiments of thousands of the farmers, workers, small business men, and decent church going people—who are daily learning that the surrender of the State government to Moe Annenberg (King of the Race Track Bookies), to Joe Pew, (Oil Baron), or to Joe Grundy (Millionaire Sweet-shop Operator and Head of the Pennsylvania Manufacturers Association) will place our State in the hands of the same gang from which it was rescued four years ago. Thousands of Registered Republicans who voted for Judge James in the Primaries are not voting for him in this section—because they have learned that he is merely the tool of the above men who would exploit our State Government for their own Personal Benefit.

These thousands of Republicans favor Charles Alvin Jones and the Democratic Candidates, men who are not tools of Big Business and who are determined that the PEOPLE shall rule themselves.

Telephone Man Is Badly Injured In Massachusetts

Local Resident, Working In Storm Area, Struck By Automobile

Iverson Carlson, aged 44 years, of Moody avenue, who has been working in Massachusetts, helping to clear up the damage done by the hurricane which swept the New England states, more than a month ago, was badly injured when struck by an automobile in Clinton, Mass., according to word which has been received here.

Mr. Carlson was crossing the street when a woman driver swung around a corner, making a left turn, and knocked him into the street. He suffered a severe concussion, and bruises of the head and arms.

He has made a splendid recovery from his injuries and is expected to be able to return to his home here about the middle of the coming week, according to word received by District Manager Virdyn R. Caldwell.

False Registration Charge Is Made

Authorities Are Hunting Joe Dixon, Colored, To Present Perjury Charge

Joe Lee Dixon, alias Joe Dixon, colored, charged with perjury in connection with an alleged false registration before Thomas Edmunds, registration clerk, is a fugitive from justice, having failed to appear for a hearing before Alderman Mantz.

Dixon told District Attorney John G. Lamoree and Assistant, Leroy K. Donaldson, that after he had obtained a job on the WPA he had been taken to the registration bureau by a man whom he only knew slightly, who stood behind him while he was registering Democratic and told him how to answer the questions.

According to the investigation made by the district attorney's office, Joe Lee Dixon, registered on June 27, 1938. At that time he claimed to have been born on June 30, 1914 in Georgia.

On September 24, 1938 he registered as Joe Dixon, setting forth that he was born June 3, 1914 in Pennsylvania.

As the handwriting appeared to be identical he was called before the registration commission consisting of the county commissioners, on October 29. Under oath he testified that he had never signed the first named registration card, and further that he had never used that name. He further claimed that he had never used the middle name of "Lee".

Investigation by the district attorneys office showed that in 1937-8 he had been employed by a company working on a utility power project under the name, "Joe Lee Dixon". It was also found that he had worked for the Penn Coal and Supply Company under the name of Joe Lee, and that a social security card had been made out in that name.

It was after this that he was employed on WPA work on highways, when he registered as Joe Dixon. Charles made against him before Alderman Mantz, include perjury, false registration. He seemed to have been informed of the charges before he could be arrested, and has left for parts unknown, the officials say. It is the intention of the district attorneys office to indict him before the next grand jury, it is stated.

WHAT ABOUT THE TEACHERS TENURE?

The Democratic incumbent in the General Assembly, Carmi G. Preston is endeavoring to make capital out of the fact that he voted for the Teachers Tenure Act. He has circulated every teacher in the public school system in New Castle in an attempt to convince them that the Democrats gave them the only rights they ever had.

Every sensible person believes in a continued program of higher standards for teachers. Realizing this the Republicans gave the teachers the Edmonds Act which guarantees them set salaries, the Continuing Contract bill which was tenure in a different form, the retirement fund and other advantages.

The Teachers Tenure Act merely puts on the statute books the system in vogue in New Castle for many years with a few exceptions.

BUT here is something Carmi forgot to tell anyone. Act 52-A provided a probationary period for teachers before they were given life tenure. 52-B would have denied tenure to any teacher not a citizen. 52-C would have denied tenure to a teacher teaching seditious practices. On every one of these Preston voted NO. In other words, by his vote, Carmi G. Preston said he believes that a citizen of a foreign country, teaching seditious to the boys and girls of New Castle could not be discharged. DO YOU BELIEVE IT?

But you can't be too harsh with Carmi. He was only doing what the boss, Davey Lawrence ordered him to do. Of course he might have thought that the people of New Castle were his bosses but it was so much easier to listen to Davey.

Do you want a rubber stamp in Harrisburg? We have had one for two years. Let's have something to say about how our representative should vote.

I am the Republican candidate for the General Assembly. If elected I will answer to no political boss or clique.

MARGIOTTI FOR GOVERNOR EXECUTIVE COMMITTEE

The present leadership of the Democratic Party in Pennsylvania has done nothing to clear itself of charges of corruption other than to make repeated attempts to block investigation.

Charles Alvin Jones has refused to make his position clear as to his views concerning the Harrisburg mess and has not denied Matt McCloskey's statement that he would control him if elected.

Both of our rubber stamp legislators approved of the \$500,000.00 special session and voted for the gag laws.

For these reasons among others we endorse and in the interest of honest government urge our primary followers to support Arthur James for Governor and the entire Republican ticket.

Executive Committee:

JOSEPH A. CIOTTO

ELEPHANT GRAVES ELUDE

After a long search for an elephant cemetery, often mentioned in Central Africa, R. Sim declares that there is no such thing. During extensive prospecting tours for gold and diamonds he searched for burial places of the beasts, but was unable to find one. On his arrival in Johannesburg he said he believed that when an elephant is sick it leaves the herd and treks to marshy country where it lays down and dies. Bones and tusks, he stated, are usually found in rivers by natives and carried away. Despite his assertion many believe that the elephants have a place where they all go to die.

NEW CASTLE HIGH DEFEATS MONESSEN 12 TO 9

Roberts Scores Two Touchdowns

New Castle High "Red Hurricane" Pulls One Out Of Fire; Final Home Game Of Year Draws But 5,000 Fans; Larry "Streak" Roberts Tallies Both Of Touchdowns For Red And Black; Monessen Scores On Safety; Beck Makes Touchdown For Visitors In Second Period.

LARRY "Streak" Roberts on two beautiful gallops, one for 44 and the other for 45 yards accounted for all of New Castle's points last night at Taggart Stadium as the "Red Hurricane" defeated a hard fighting Monessen Greyhound team, 12 to 9 in the finale of the 1938 season on the home lot.

New Castle trailed 9 to 6 until midway of the fourth and final period when Roberts with the grace of a gazelle stepped his way around end and was off for the touchdown that gave the Bridenbaugh machine its victory. The first downs were five each. It was a hard fought game in every period with an abundance of punting.

Monessen Takes Lead
Monessen was in the New Castle territory most of the evening. New Castle never really threatened the Monessen goal line outside of the runs by young Roberts. Monessen had several additional scoring chances and muffed them.

The Monessen touchdown was one of the prettiest plays of the year here, a pass good for 60 yards with Beck receiving from Corley and racing over the goal line. The Monessen safely resulted from a bad pass from center by Palusak in the second period after New Castle had taken the ball on downs on the local 15.

On a snap-back intended for Roberts, Palusak sent the ball away over the colored boys head and it rolled back of the goal line, where Roberts fell on it at the same time that a Monessen man pounced on him.

Beck Scores On Pass
Roussos kicked to the Monessen team on the New Castle 47 yard line. On the first play Corley faded away back and heaved a sweet looking pass of some 40 yards that Beck took gracefully and sped for the goal line, to make it Monessen 9 and New Castle 0.

Greer who had replaced Burris at halfback for New Castle was injured on the touchdown play and was given medical attention, but stayed in the game.

The Monessen lead looked quite big at this juncture. The big Greyhound team looked the part as they rang up nine points in a very few minutes to put the New Castle team strictly on the defensive.

Larry Roberts Tallies
With the first half just about over, it was left for Larry "Streak" Roberts, New Castle's fleet colored halfback to put New Castle back in the ball game. On a 45 yard gallop, the result of a triple lateral Lauro to Cennamo to Roberts, executed with perfect timing and precision and before the bewildered Monessen team could get its bearings, Roberts was heading for the pay-dirt and it was no use chasing him.

Roussos missed the conversion by a wide margin. Monessen 9 and New Castle 6 and that is the way the first half ended.

Monessen Threatens
The Monessen team put on a big threat in the early stages of the

third period. After the opening kickoff and an exchange of punts, the Monessen backfield boys Beck and Gluhank and Hilly, the colored end, carried the ball to the New Castle 4 yard line only to loose it on downs.

Gilboy who had replaced Piccirilli at guard for New Castle booted the ball out of danger, to Monessen on the New Castle 36-yard line, and the visitors again put on a drive that was only halted by a fumble by Beck that gave New Castle the ball on the local 18-yard line. Ralph Cennamo who by the way played a swell game at end last night, fell on it.

Lauro, Roberts and Greer carried the ball in succession, and failed to gain the necessary yardage and Gilboy was forced to kick again. Gilboy booted to Monessen on the New Castle 47. Monessen had the ball on the New Castle 43 yard line as the third period closed.

Kick Out Of Danger
On an end around play Corley made two yards and then Mendicino kicked to New Castle back on the local 11. Lauro and Cialella picked up a first down on three tries at the line. Noga replaced Greer for New Castle at halfback. Furlow went into the Monessen lineup.

Lauro made five and then tried to pass to Cennamo, but it was batted down. Gilboy then kicked to the "Monies" on the Monessen 10-yard line, a honey of a boot if there ever was one.

Masks who had replaced Radosh for Monessen at fullback picked up five yards. Gluhank made a yard and then Masks made one more yard.

Mendicino kicked to Larry Roberts on the Monessen 46-yard line. Roberts made two yards on the first play after getting the punt.

Roberts Saves The Day
New Castle caught the Monessen team flat-footed on a fake reverse that had Roberts carrying the ball and he swept out around right end like lightning, behind perfect blocking and interference led by Rucker, Roussos and Adamo and ran all the way to the goal line without being maddened.

It was recorded as a 44-yard gallop. Adamo was hurt on the play but stayed in the game. Roussos again missed the extra-point, but New Castle had the lead now at 12 to 9.

Passes Fill Air
There were just five minutes of the game left to go after the kickoff following the New Castle touchdown. New Castle was content to protect the lead, and Monessen, every time it had the ball, tried pass after pass; broken up for the most part.

New Castle's last real scoring threat of the night came in the dying moments of the fourth period when Lauro rushed to the Monessen 25-yard line for a first down, but New Castle lost the ball on downs after four tries and Mendicino kicked to New Castle on the New Castle 40 as the game ended.

Shenango Thumps Union High, 33-0

East New Castle Eleven Tops Scotland Laners Second Time This Season

Shenango township high school won a 33-0 victory over Union township Friday afternoon at Shenango field. The contest ended the grid season for both teams.

Pitzer plunged over from the 2-yard marker for Shenango's first score. Ray Fredericks, alert guard, blocked a Union punt in the first.

Captain Howard Currie, who was converted from a tackle to a blocking back, picked up the ball and raced 30 yards for a touchdown. In the second, Captain Currie intercepted a pass and dashed 35 yards before reaching paydirt. Latham plowed his way through center from the 3 for the fourth score. Latham's pass was tucked in by J. Donley who ran 30 yards for the last score. The play was good for 50 yards.

Union never threatened to cross the Shenango goal line. Captain Currie, a letterman for three years, was an outstanding performer in the backfield. Latham, J. Donley and Pitzer played exceptionally well. This marked the second time this season that Shenango has dropped the Union club for a loss.

Eight Boxing Bouts Carded Here Monday

West Pittsburg, Bessemer, Princeton And South Side Boys To Fight

RUBIN MEETS WILLS IN FINAL BOUT

Most of the political punches already having been delivered people will have a chance Monday night to see other kind of socks delivered in The Arena. The socks will be distributed by 15 amateur boxers who will engage in eight bouts, sanctioned by the Amateur Athletic union and the Pennsylvania State Athletic commission. The first bout starts at 8:30 p. m.

Fans will see seven battles then watch eagerly for the eighth or spotlight scrap of the evening because it will find Mickie Rubin, dynamic socker of this city stacked against Owen Wills, of Pittsburgh. They are scheduled to weigh 175 pounds.

If Wills is clever and as good a puncher but a little tougher than Joe Popeski he may cause considerable trouble for the local kayo artist. Popeski had Mickie wobbly both times they battled but did not simulate punishment and finally caved in under Rubin's ponderous assault.

In addition to slowing away Popeski, Rubin won from George Sceraman and Joe Biro. When he boxed Biro he demonstrated little regard for weight and actually when the fighters stepped into the ring Biro had a flesh advantage of more than 30 pounds.

There is one fact assured the fans; and that is, Rubin will fight. He has yet to back away from an opponent, cower in a corner or to seek shelter upon the canvas. Just how good Wills is remains to be seen. However, his sponsor speak well of his ability the matchmaker reports.

Armand Covelli, southpaw socker will meet Ernie Tipton of Pittsburgh in the next to last fight. Covelli is not boxed in The Arena for several weeks. Tipton will be saying his first hello here with gloves and no doubt will be anxious to win from the New Castle welterweight.

Blackie Ferrar of the South Side will battle Frankie Clark of Bessemer, a lad who recently returned from a enlistment in the U. S. army. Blackie has had one fight. In that encounter he scored a kayo over Jack Blackburn of Cleveland. They will box at 130 pounds.

Kabias Against Dairymple

Bessemer High Trims Freedom

Cement City Eleven Cashes In Seventh Straight Victory Of Season, 20-0

LOWELLVILLE HIGH IS NEXT OPPONENT

(Special To The News)
FREEDOM, Nov. 5.—Bessemer high school's plucky eleven today is among the few undefeated teams in the district, following an impressive 20-0 victory over Freedom high, Friday afternoon, at Freedom.

The powerful Red and Black machine lost no time once the whistle sounded. From mid-field, the hard driving Bessemer backs started a sustained drive that soon placed the oval on the 1. From this point, Kennedy dived over the final chalk stripe. In the second, the Bessemerites mustered another attack that put the ball on the Freedom 15. Shoup got through for a three yard advance and lateraled to DeArment who easily scored.

Bessemer took to the air for their final touchdown. With Kennedy, DeArment and Shoup ripping through the Freedom line for substantial yardage, the Lawrence count was moved to the 20 yard mark. Pelto faded back and flipped the egg-shaped ball to A. Drahushak who trotted into paydirt. The final two points came in the fourth when Archie Shoup blocked a Freedom punt on the 20. The play was stopped so perfectly that the ball nearly went over the goal posts as a Freedom back dropped on the oval.

Bessemer clicked like a machine in registering its seventh consecutive victory of the year. Kennedy and Shoup, together with the other backs, played well throughout. When yardage was needed, the sturdy backs dug their cleats into dirt and splashed through the forward trench. On the line, A. Drahushak, J. McCree and A. Drahushak performed admirably.

Bessemer's big game is scheduled for next Friday afternoon, when Lowellville invades Bessemer. The game will start at 2:15 o'clock.

The lineup:
Freedom 0 Bessemer 20
Caldararo L.E. Linta
P. Drahushak L.T. Ruckert
J. McCree L.G. Hamilton
Hribar C. Cennamo
Ault Mores R.G. Martin
S. Skuta R.T. D. Kronk
A. Drahushak R.E. Marsilio
DeArment Q.B. Schuller
Pelto L.H. J. Ruckert
Kennedy R.H. Butcher
Shoup F.B. Yanyan

Score by quarters:
Freedom 0 0 0 0—0
Bessemer 6 6 6 2—20
Touchdowns—Kennedy, DeArment, A. Drahushak. Missed points after touchdown—Shoup 3 (placement). Referee—Shanks. Umpire—French. Linesman—Melter.

Substitutions—Bessemer: Zornich, M. McCree, R. Conners, Oblak, Cracraft, Shuliga, Notarsch, Squella, Swanson, Germanovich, Fert, Gallista, Gallo.

Britain can easily arm against Germany. The hard job is to check the Germans and not keep them strong enough to check Russia.

Selling oil well stock by mail takes brains. No ordinary letter writer can make a dry hole look like easy money without actually lying.

Weatherman W. S. Brozman has decided it will rain all day, and added to this discomfot, it was probable that the temperature would fall considerably.

After many victorious contests the fish had been dubbed "the tackle buster" by fishermen who had at one time or another hooked into this leviathan. Enough lures to stock an ordinary sporting goods store has been snaggled in the warrior's nightly scavenged jaws and broken from the lines of anglers nonchalantly casting for bass.

The catch was a fitting climax to a very successful season by "Al" and several Lawrence county sportsmen. During the season the party captured a total of eight muskellunge of huge size; the smallest measuring 30 inches in length.

What is more interesting to local anglers is the fact that all of these fish were caught within a 20-mile radius of New Castle, which only goes to prove that some great sport can be realized in our own back yard.

Club Notes
At the next regular meeting of the Lawrence County Sportsmen Association to be held Wednesday night at eight p. m., in the City Building a debate will be staged by Nicholas R. Casella, a well known sportsman, author and teacher, and William Houck, secretary of the club. The subject will be the merits of live bait and artificial lures. All sportsmen are expected to be present.

Rambling Around World Of Sports

A million dollars worth of football material was uncovered in the recent Ben Franklin-Washington fracas at Taggart stadium. More than 2,000 persons were almost left breathless as the youngsters put on one of the finest pigskin shows in years on the local gridiron. The fans marvelled at the football technique of these future high school men in mokeskins. The lads passed, blocked, punted, reverses and what not in impressive style.

When the schoolboys ended their 9-0 battle, the gallery left raving about an Edenburg youth, "Dick" Biddle, Washington back. The 16-year-old athlete had a busy afternoon halting the marches of Ben Franklin. It would be safe to say that Biddle took part in two-thirds of the plays. In the final few moments, he took personal charge and broke up every pass tried by the Blue and Gold eleven. Here's a star in the making if there ever was one. For Franklin, this lad Norman Scarazzo, is blessed with the strength of a bull. Scarazzo busted through time and again, spoiling many Washington advances. You've heard about fellows who throw footballs like baseballs. That's exactly how Magpie dishes out the leather. He zipped the egg-shaped ball far and accurately. Morella, Franklin's end, has lots of speed getting down the field. Page, a midgen, demonstrated how greyhounds chase rabbits around the track. Its safe to say that should these lads move on to New Castle high, and here's hoping they do, Taggart field patrons will see some of the smoothest players in years.

Stock Market Is Generally Firm

Gains Of Modest Proportions Are Made—Trading At Slow Pace

By LESLIE GOULD
International News Service
Financial Writer

NEW YORK, Nov. 5.—The stock market today closed on a spirited note, with a generally firm tone after a morning further free falling at the start.

Gains were of modest proportions, trading continued at an extremely slow pace, but most representative groups finished behind plus signs. Prime influence was another budget of favorable business items.

In addition to steel and motors, favored gains were registered by oil, chemicals, electrical equipments and coppers. Utilities were backward, as the group continued under the influence of the government's anti-trust suit against Columbia gas.

Advances of almost a point were shown by Bethlehem, U. S. Steel, Chrysler, U. S. Rubber, American Smelting, Westinghouse, Eastman Kodak and DuPont.

American Can, Loew's, Allied Chemical and Union Carbide were among the stocks to lag.

Girl Scout Week Is Well Observed By Local Troops

Many Activities In New Castle As Part Of National Celebration

Girl Scout Week, which draws to a close today, was celebrated in a complete way by the New Castle Scout organizations.

Beginning with a city-wide "go-to-church-day" for scouts last Sunday the activities in observance of Girl Scout week and the anniversary of the birth of Juliette Low, founder, have continued each day.

There have been special programs at the various troop meeting, window displays in all part of New Castle radio broadcast by the commissioner, Miss Emily Rice, and so forth, and the city has become really Girl Scout conscious.

Miss Alice Mulkey, national staff member, came to town and addressed the local scout council on Tuesday night in the Green building and troop leaders from New Castle, New Brighton and Beaver Falls in the First Christian church Wednesday evening. Mrs. W. H. Hanger, local camp chairman, addressed the leaders' training class in the church on Thursday night.

One new troop, in the Croton district, was organized; Miss Dorothy Patch is the leader.

Mrs. John A. Edgar, chairman of the publicity committee was assisted in spreading the news of Girl Scout Week by Mrs. J. B. Hurst, who wrote the newspaper stories, Miss Helen MacLean, scout director, and Miss Rosena McGurk, who arranged for the posters. Miss McGurk was helped by the Misses Georgianna Truby, Phyllis Feiler and Doris Ann Bennett.

Kidnapers' Nemesis

Norman Miller (above) had plenty of time to listen, so four thugs are now being held in New York in the kidnap-murder of Arthur Fried. Snatched by the same gang, Miller heard church bells and click of billiard balls. Following this clue, the G-men rounded up the gang.

Bones Spur Kidnap Probe

No Home, But Even Czech Refugees Must Eat

This Czechoslovak woman, whose home had been in the region that was recently taken over by Poland, butters a piece of bread, as she sits amid her belongings on the roadside. This scene is typical of many whose homes were situated in the disputed areas.

Tank Stoppers on the Nazi Siegfried Line

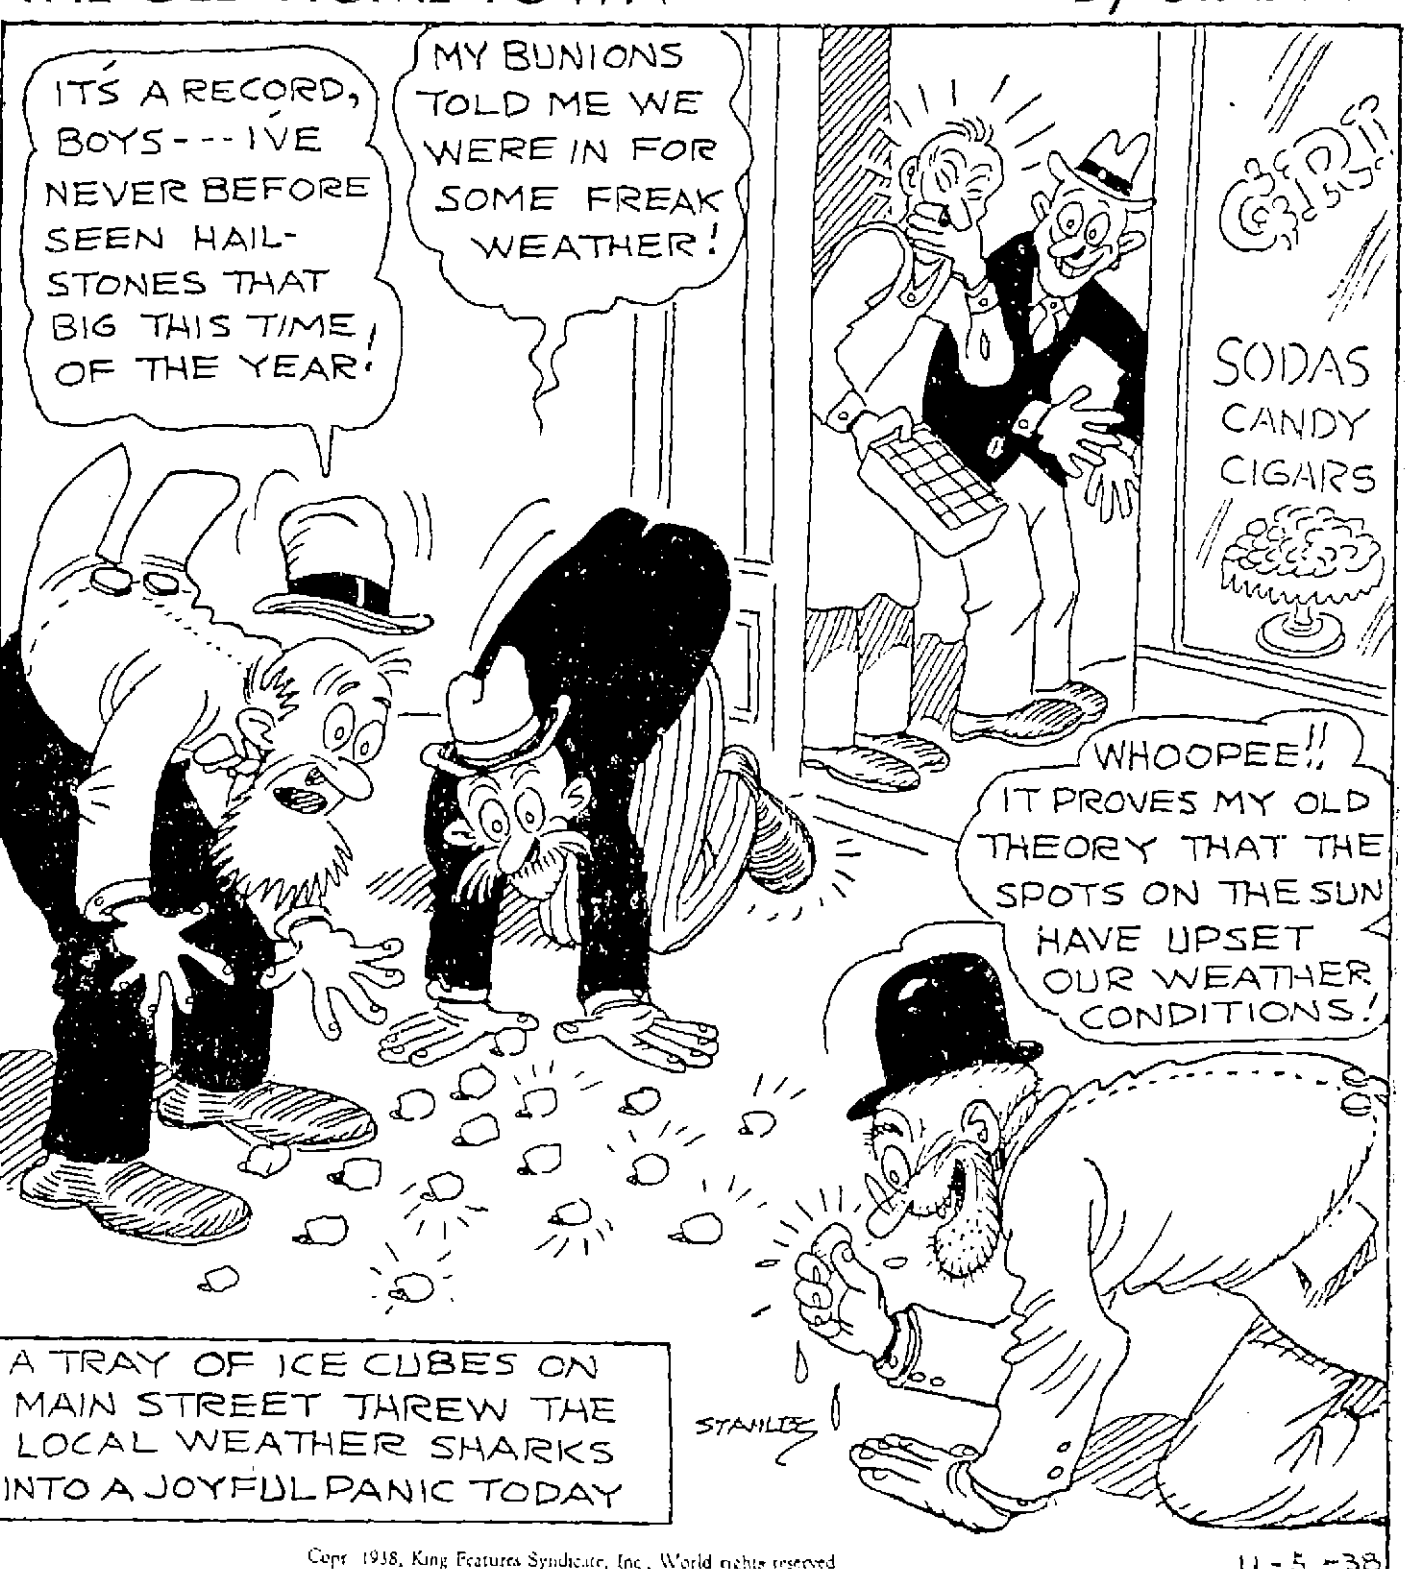

Declaring she would be protected by a ring of concrete and steel, Germany built the Siegfried line on the Western front. In the foreground is a new type of concrete road barrier, which can be moved on rails. In background, stretching over hills, are closely built tank barriers, mounds of concrete described as the "gravestones of the tanks."

Juniors Of Red Cross To Parade

Will Show Interest In Organization And Roll Call Next Saturday

CHILDREN MAKE OWN ARRANGEMENTS

The children of New Castle will see the Junior Red Cross of the Lawrence county chapter make their first public appearance on Saturday morning, November 12, in a very short parade down their part to Cape the 1939 Roll Call.

Fred McLean, chairman of the Junior Red Cross, and Miss Margaret F. Bodenstern, executive secretary, are permitting the children to carry on all the arrangements for this parade and are letting them make their suggestions in the different schools so that there will be truly a junior organization undertaking.

The chapter is making arrangements with Mayor McGrath and the city police department for protection during the parade and Ralph Davis, chairman of the chapter, is making arrangements to have some of the Boy Scouts participate in the parade as color bearers.

The following city schools have signified their intention of joining the parade:

Highland, North Street, McGill, Pullock, West Side, Oak Street, Kose Avenue, Aiken, Croton.

The county schools so far represented are:

Walters, Poverty Point, New Wilmington and Hillville.

As this is the first time that such an event has been undertaken, the chapter is hoping that the New Castle people will give encouragement to this junior event. The line of march will be from the Mercer street parking lot to Jefferson street, up Jefferson to Washington, East Washington to East street, East street to North street, North to Mercer to the Red Cross office.

It is hoped that before the final arrangements are made that more bands may be secured.

Dr. W. Fulton Jackson is to act as marshal of the parade.

Enraged Bull Is Killed By Farmer With Small Knife

GLENVILLE, W. Va., Nov. 5. —William Powell, 67, farmer, of Dry Run, three miles east of here, saved himself from being gored by a ferocious bull today when he slashed the animal's throat from ear to ear with a small scout knife.

The aged farmer, a hunter almost all of his life, was knocked prostrate by a 900-pound, 4-year-old Jersey bull.

Powell, lying on his back, wrapped his legs around the neck of the bull, held one of its foot-and-one-half long horns with one of his hands and took the knife from his pocket with the other.

As fast as he could plunge the short instrument into the neck of the animal he slashed at the would-be killer.

Completely exhausted but showing no external hurts, Powell was later taken to his home.

Local School Setup Studied By Educators

Group Of Educators To Visit And Study Here Next Week

Educators from the Teachers College of Columbia University are to be in New Castleduring the week of November 7 for the purpose of studying the local school system, it was announced today.

They are here under the direction of Professor Paul R. Mort, head of the Advanced School of Education, and under the sponsorship of the Columbia University Council for Research in the Social Sciences. Dr. F. G. Cornell and Dr. W. C. Reusser are the research staff representatives who will head the work in New Castle. They will be escorted through the various buildings of the district by Superintendent C. C. Green, to meet members of the administration, teachers, groups of pupils and persons in the city familiar with the development of the New Castle schools. The school teachers, parents and various members of the community are to be canvassed for opinions on school affairs.

The work of this research group in Pennsylvania includes several large city districts, smaller cities, boroughs and townships, a total of approximately fifty. Members of the staff are to visit poor and wealthy districts, industrial, mining and agricultural areas. The work this year is a continuation of studies made in twenty communities during the school year of 1937-1938.

The present school setup in the State, as a historical development in various phases of finance, material used, and the method of its presentation, is the chief concern of the study.

The survey is entirely for purposes of research. The State Department of Public Instruction is co-operating and in fact the start of the study was made at Harrisburg. Means by which the schools have been improved in the past will be studied, and by this it will be more clearly seen what means may be taken for progress in the future.

January Class Prepares Play

Rehearsals Already Under Way At New Castle Senior High School

The January class of the senior high school are busy organizing their commencement events under the direction of their supervisor, Miss Virginia Weinschenk. The class play, their first major event, has been in rehearsal for some time under the direction of the dramatics coach, Miss Clara Hartsuff. The three-act comedy in which the carefully selected cast will frolic behind the footlights is James Reach's "Don't Ever Grow Up."

The play calls for 17 clearly drawn characters, girls and boys of the high school age and a father and mother to represent the older generation. The action concerns itself with some exciting events attending the 18th birthday party of a sweet young thing. She suddenly has begun to take herself quite seriously and in her attempt to be a heroine she nearly precipitates a tragedy. Football stars, a championship game, a high school dance, a lawn fete, a temperamental romance, boys and girls together in their first amateurish attempts at being grown-up under the guardianship of a father and mother, host and hostess with a sense of humor, make up a series of stage opportunities for hilarious comedy. "Don't Ever Grow Up" is another youth comedy which is sure to please.
